ABOUT ME

I am a frontend developer with a strong foundation in JavaScript, React, and web development technologies. I specialize in building responsive, user-friendly websites and dynamic web applications using modern frameworks and tools like React.js, Redux, and SCSS. My goal is to create innovative and performant solutions, continuously improving as a developer in the ever-evolving tech landscape.

WORK EXPERIENCE

Intern Intelligence
Frontend Developer Intern

March 2025 – April 2025

- Developed a Login-Register app with 3D effects using React.js and Supabase for a dynamic and smooth user experience.
- Developed a fully functional E-commerce website with all essential features using React.js, Supabase and many other tools and technologies.

Self-Employed
Frontend Developer

August 2024 – October 2024

- **Developed responsive UI components to ensure an intuitive and seamless experience across devices.**
- **Enhanced site performance for faster load times and smooth user interactions.**

Self-Employed
Game Developer

January 2022 – August 2024

- **Designed and Developed game mechanics and UI with Godot Engine and using GDScript.**
- **Optimized performance for smooth gameplay.**
